25X1 2. The priorities listed in paragraph 1 above do not include countries described in existing JANIS,

Where it is necessary to assign priorities to the areas so covered, the following is recommended:

First priority: Western Europe
Turkey
Greece
North Africa
Norway

Second Priority: China
Japan
Southeastern Siberia
Kamchatka

Third priority: West Africa
Central Europe (including the Balkan
countries)
Central Africa

Fourth priority: Australasia

As the accumulation of new material warrants and time permits, the intelligence studies covering areas in first and second priority should be revised.

3. It is understood that by eliminating a certain amount of detail, JANIS studies can be completed at the rate of six per year, which is considered to be a satisfactory rate. It would be desirable to have the second phase or partial JANIS produced concurrently and at the same rate.

4. The Joint Staff Planners have approved the foregoing recommendation.

C. C. GOODE,
Secretary.
